POTTERY with PAT WORKSHOP

Artist's Statement

My way of teaching is through demonstration, encouragement and helping others to find individual approaches to the classical challenges of form and function.

My studio is on a rocky hilltop, wrapped by forests, sea and mountain views. There are woodland trails, ponds, birds and a sunny peaceful aspect to work in.

My pots reflect my surroundings in colour and theme and often feature animal figures.

I have over thirty years of teaching and potting experience. I look forward to welcoming you to my home and studio.

Come to hone your skills, to develop your personal style, and to enjoy the potter's life in a tranquil supportive atmosphere
